

BASIN LATERAL MONITOR & PROBE HOLDER 8306

- For immersion probes 9336 and 9346
- Totally modular
- All stainless steel and aluminium
- Monitor protection
- Adjustable on any angle, rotation on 360°
- Translation on both axes
- Easy installation

DESCRIPTION

This holder is designed for pH / ORP / Oxygen electrode holders, immersion probes by side of a basin or an open channel (see page 130, 135 & 460). They allow an easy adaptation with adjustable distances and orientation on 360° angle to clear of:

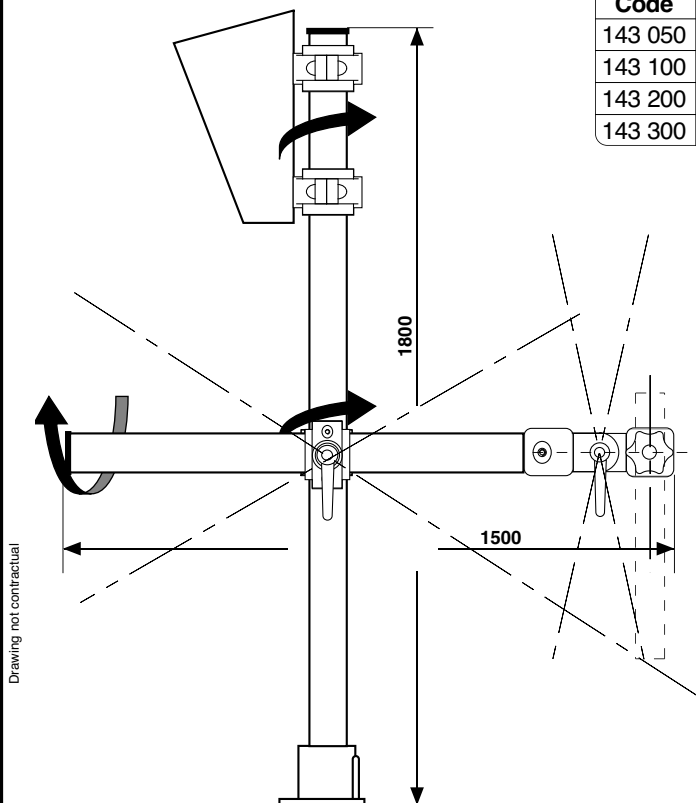

- . barrier,
- . post,
- . border.

Equipped with an open cabinet where the monitor is protected and the display is still readable.

The base and junction devices are made of aluminium; Tubes are made of stainless steel.
